

## ASSKEA M30<sup>PLUS</sup>

The all-rounder in the medical sector of mobile secretion aspiration with the extra plus in suction power

High battery capacity with a runtime up to 40 minutes in battery mode

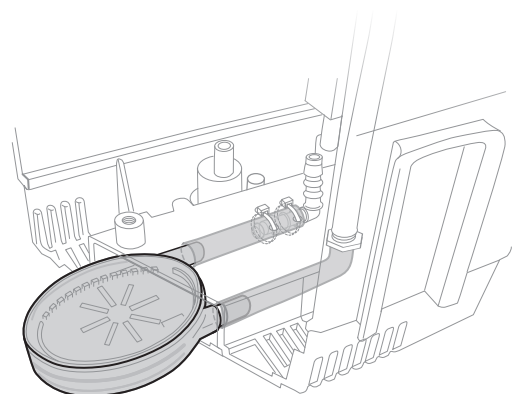

Reliability you can count on

Quick and safe reprocessing through the easy replacement of the double filter when changing patients

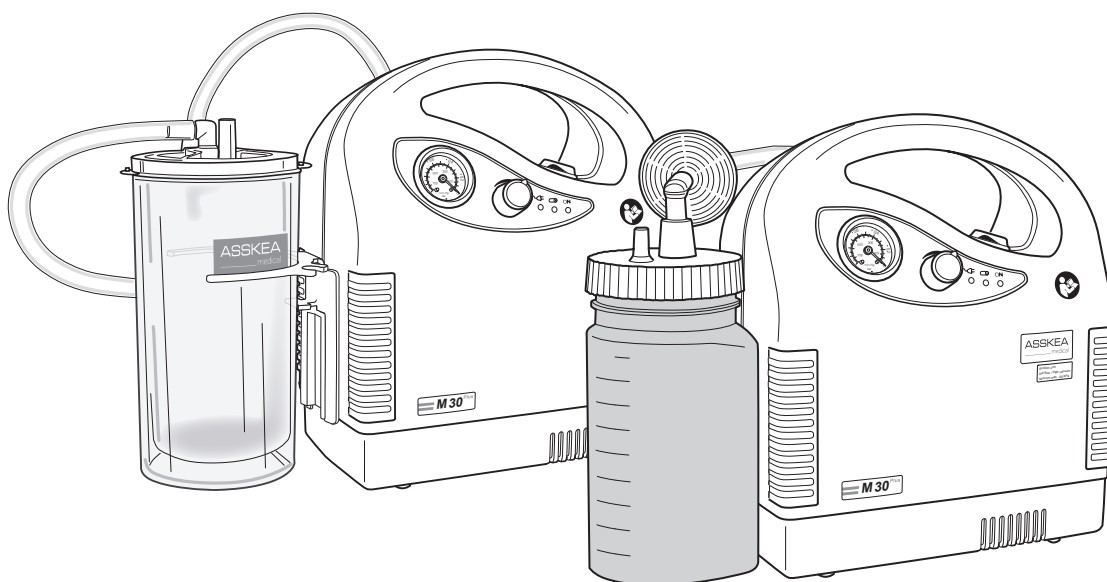

The ASSKEA M30<sup>PLUS</sup> is a network-independent, mobile medical suction device and is used for temporary removal of suction material in the head and neck region from natural or artificial body openings.

- mobile, medical suction device
- double filter system protects the inside of the device against contamination
- disposable or reusable secretion canisters
- choice of battery or mains operation
- high battery capacity
- various accessories
- high suction power
- low reprocessing costs

## ASSKEA M30<sup>PLUS</sup>

### Technical details

Performance characteristics	Specification
Flow rate (measuring point at suction tube nozzle)	max. 30 l/min ± 3 l/min
Vacuum	max. -90 kPa
Canister	reusable secretion canister system (1 l) disposable secretion canister system (1 l)
Suction tube	CH 25, 150 cm (not sterile), with fingertip
CE marking	CE 0494
Dimensions of the device without accessories (H x W x D) [in mm]	290 x 259 x 130
Weight (device without accessories)	3,6 kg
Operating time	40 minutes ON, 10 minutes OFF
Item number	100004PLUS-EW (device with disposable secretion canister system) 100004PLUS-MW (device with reusable secretion canister system)
