

ASSKEA PROVISIO® M28

The new device generation
for secretion aspiration

Modern and attractive design

Revolutionary hygiene standard: A patient-specific vacuum-generator and an additional bacterial filter provide double safety

Electronic monitoring of the suction power

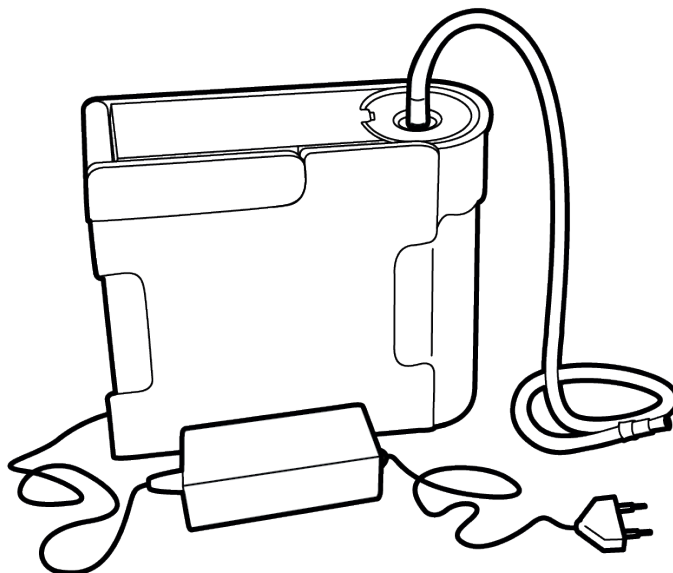

The proVisio® M28 with his modular construction is highly future-oriented. The mechanical separation of the drive unit from the patient-related vacuum generator makes the servicing of the proVisio® M28 much easier.

The device combines technical innovation with an ideal user-handling, giving the patients a new feeling of safety.

- innovative, modular design
- canister adapted on the device
- patient-related vacuum generator
- mechanical separation of the drive unit from the patient-related vacuum generator
- double safety with additional bacterial filter
- visioClick® for reliable locking of the canister lid

ASSKEA PROVISIO® M28

Technical details

Performance characteristics	Specification
Flow rate (measuring point at suction tube nozzle)	max. 30 l/min ± 2 l/min
Vacuum	max. -90 kPa
Canister	reusable secretion canister system (1 l) disposable secretion canister system (1 l)
Suction tube	Ø 6 mm (internal), length 150 cm
CE marking	CE0494
Dimensions of the device without accessories (H x W x D) [in mm]	213 x 260 x 124
Weight (device without accessories)	2,8 kg
Operation time	5 minutes ON, 5 minutes OFF
Item number	100739-EW (device with disposable secretion canister system) 100739-MW (device with reusable secretion canister system)
